

## Pet Care 3 Poisons

Pet Care 3 Poisons.

# never let your pet eat mushrooms

## AVOID POISON BAITS

*More pets die of poison baits than anything else. Do not snail poison snail baits. Do not use poison gopher baits.*

under ground animals because it is so toxic to most mammals. If you must plant these make sure your pet is not in the habit of chewing on plants. You can deter them by spraying a little Tabasco sauce and water.

Lily of the valley

Dogs and cats that chew or swallow the leaves causes vomiting and diarrhea, as well as it has been shown to affect the heart and your pet may collapse or have fits.

Cherry laurel

Pets that chew these leaves can cause death in minutes.

Castor oil bush

This is both an indoor and outdoor plant, and dogs seem to want to eat the seeds.
